# 2023 Book Dedication

The Pittston Fair Association dedicates its 2023 fair book to Darrell Weymouth.

Being a life-long Pittston resident, Darrell loved going the fair, meeting with people, and talking with friends. In the early years he helped whenever he was needed, throughout the years he loved watching his kids and his grandchildren do the pig scramble and win. Darrell enjoyed every event at the fair, especially horse pulling, also listening to Walter sing and play his guitar on stage.

# 2023 Book Dedication

## Curtis C. Jewett

Curtis' relationship with Pittston Fair dates to the early 1950's when he showed and exhibited Ayrshire dairy cattle as a young 4-H member. Through the years he continued to serve the fair as a volunteer and helped support the fair's growth through his business, Jewett Builders.

Curtis and his crew completed three major structural renovations to the fair's historical museum building, including jacking, leveling the building, and replacing sills. In 1994 he and his crew moved Pittston's two-story Community Hall to the ground's, affording the fair association rental income, fund raising space for the community, and indoor vendor space during the fair. In 1995 two small camps were moved in by Curtis and crew, creating an office space and a Strawberry Pageant building. Today these camps are used to house the Pittston's Historical Society annual fair display, and storage. In 1996 Jewett Builders and Steve McGee Construction joined forces to build the pulling ring that continues to provide a full schedule of teamster pulling activities for fairgoer of all age's entertainment. Curtis would later, in 2021, jack, level, and replace sills under the pulling ring office.

For years Curtis and friends collected items that tell a story of the past to display in the Historical Museum. Since 2018 you would find him and his wife Nancy greeting fair goers as they mull over these historical gems. Just before opening day Curtis could be spotted driving his old 1954 Leland tractor to the fair to be on display outside the museum. Don't forget to tip your hat to the farmer on the tractor as you drive on by.

## 2022 Strawberry Queen

Hi, I'm the 2022 Maine Strawberry Queen, Morgan Boynton! I'm from Readfield, Maine, and just recently graduated from Maranacook Community High School. I've played field hockey and softball for as long as I can remember, as well as doing pageants, but let me say there's nothing like the Strawberry Pageant. This is not my first experience with the Pittston Strawberry Pageant, I've been doing the pageant since I was 7 and was the 2019 Strawberry Princess! Over my year as queen, I have gotten to do so many amazing things! From the Union Fair and Rockland Lobster Festival, to the fanciest dinner I've ever been to at the Maine Agricultural Fair Association Banquet, I have had a blast. Lexi and Sailor have become two of my favorite girls and this year with them has been so memorable. My personal favorite was the antique car parade at the Litchfield Fair, I rode in the nicest red antique convertible while a super sweet elderly couple drove me around the fairgrounds. Thank you to the Pittston Fair and Liz Chaisson, the pageant director, for everything they've done for me over the years and good luck to the 2023 Strawberry Royalty, enjoy it!

## 2022 Strawberry Princess

My name is Lexi Benner, I am 12 years old, and I am in 6<sup>th</sup> Grade at the Gardiner Regional Middle School. Over the last year I have really enjoyed being the 2022 Maine Strawberry Princess. I have always been a shy and quiet kid and joining the strawberry pageant has helped me come out of my shell. I really like volunteering during the fair. I love farm animals, so I spend a lot of my time around the barn or helping at the pulling ring. Over the last year, my strawberry sisters and I went to other fairs to be special guests during their coronations, we rode in convertible cars through parades, and we represented Pittston Fair at the MAAF Fair Convention in Portland. My favorite event was at The Big E in Massachusetts. I helped greet guests as they entered the Maine Building, I had special reserved seats at the circus, and I rode in the parade on the Butcher Boys float. I hope that all the girls that are running for the 2023 Strawberry Princess title, work hard volunteering during the fair, spend time being kind and getting to know the other girls in the pageant, and most of all I hope they have fun and enjoy this opportunity.

## 2022 Strawberry Blossom

My name is Sailor Deforge, and I was last year's Strawberry Blossom winner. I loved doing the Strawberry Blossom pageant because I made so many good friends and I got to make strawberry shortcakes for everyone at the fair. I have gotten to do so many fun things over the year and my favorites were being in the Christmas parade, The banquet in Portland where they had the best salad, and I loved judging the sheep costume contest at the Windsor Fair. The best part about being last year's winner is that I got to wear the best dresses and shoes, a big, beautiful crown, and sash that I got to add lots of special buttons to that I got at different fairs. Winning was so exciting, and I wasn't expecting it. This has been one of the best things I've ever done, and it made me so happy! I even almost cried when I won because I was so happy and surprised. I will never miss a day of Strawberry pageants!

**“FIRE AND ICE” SHOW**

**FOR SOME COOL AND HOT**  
**ENTERTAINMENT!**

Get ready for some sizzlin' excitement! Join us for SAFE and scientific fun with fire and ice! In this show, children will explore the 3 states of matter and learn about the amazing properties of fire and combustion. Children will see how our special Mad Science paper can burn leaving no ash behind and their jaws will drop when they witness our “Swoosh, Whoosh, Aaaah” experiment. After some sizzling chemical reactions heat things up, we will cool off with spectacular demonstrations involving dry ice! We will explore the “Big Burp”, the “Sizzling Scissors” and the famous “Mad Science Shower”. Children always marvel at the “coolness” of this frozen gas. All Mad Science shows provide live, interactive and compelling educational experiences that make learning a blast!
